

DANIEL BUTI DIPEERE

JUNIOR FRONT-END DEVELOPER

Johannesburg, South Africa | butinyana2017@gmail.com | [GitHub](#) | [LinkedIn](#)
[Portfolio: butiza-hub.github.io/portfolio-website-dipeere/](https://butiza-hub.github.io/portfolio-website-dipeere/)

PROFESSIONAL PROFILE

Junior Front-End Developer with a professional background in business management, logistics, and operations, currently developing practical software development skills through structured full-stack development training. Experienced in building responsive and interactive web applications using HTML5, CSS3, JavaScript, React, Git, and GitHub. Practical project work includes developing user interfaces, implementing JavaScript functionality, working with application state and browser storage, using version control, and deploying live web applications. Brings established professional strengths in problem-solving, organisation, communication, decision-making, and managing responsibilities, with a strong focus on continuing to grow as a front-end developer.

TECHNICAL SKILLS

Front-End Development: HTML5, CSS3, JavaScript, React, JSX
Responsive Design: Flexbox, CSS Grid, responsive layouts, media queries
JavaScript: DOM manipulation, event handling, application state, localStorage, asynchronous JavaScript
React: Components, props, state, event handling, controlled forms
Development Tools: Git, GitHub, Command Line / Bash, Visual Studio Code
Version Control & Deployment: Git workflows, GitHub repositories, GitHub Pages
Testing: Mocha, Chai, Test-Driven Development (TDD)
Development Practices: Semantic HTML, responsive UI development, debugging, project organisation

DEVELOPMENT PROJECTS

NVIP - National Vehicle Identification Program

Flagship Front-End Development Project

Designed and developed an interactive vehicle identification and patrol-monitoring web application demonstrating practical front-end development and problem-solving. Includes QR-based vehicle identification, a simulated Patrol Beacon Monitor, vehicle tracking, dynamic status classification, warning and urgent-alert states, and responsive user interfaces.

Technologies: HTML5, CSS3, JavaScript, Responsive Web Design, Git, GitHub

Live Demo: butiza-hub.github.io/NVIP-ZA/

Project 25 - Security System Administrator (SSA)

Front-End Security System Simulation

Developed an interactive residential security-system dashboard featuring multiple security zones, armed and disarmed states, entry and exit delays, alarm conditions, visual status indicators, event logging, browser localStorage and responsive interface behaviour.

Technologies: HTML5, CSS3, JavaScript, localStorage, Git, GitHub Pages

Live Demo: butiza-hub.github.io/ssa-root-7.7/

Inspiration-26

Interactive JavaScript Project

Built a responsive inspirational-message generator demonstrating JavaScript DOM manipulation, event handling and dynamic content updates. The application selects messages dynamically while preventing immediate repetition and uses interface transitions to improve the user experience.

Technologies: HTML5, CSS3, JavaScript, Git, GitHub

Live Demo: butiza-hub.github.io/Inspiration-26/

TRAINING & PROFESSIONAL DEVELOPMENT

Full-Stack Development - Codecademy | *In Progress*

Structured training in modern web development with practical exercises and project-based learning. Current areas of development include HTML5, CSS3, JavaScript, Git, GitHub, Command Line, Mocha/Chai testing, asynchronous JavaScript and React.

CERTIFICATIONS

- Introduction to the Command Line - Codecademy
- Learn the Command Line: Viewing and Changing the File System - Codecademy
- 420-hour Level 5 Advanced TEFL Certification - i-to-i Academy, October 2024; specialisations include Business English, Online & One-to-One Teaching, Teaching Other Subjects in English, and Exam Preparation.

EDUCATION

Nelson Mandela University / Port Elizabeth Technikon

National Diploma Studies - Inventory & Stores Management

Technikon South Africa

National Diploma Studies - Purchasing Management (Logistics)

PROFESSIONAL EXPERIENCE

Business Manager - Kotulo Resources

September 2016 - May 2021 | Johannesburg

Managed business and operational responsibilities including planning, coordination, administration and day-to-day decision-making. Developed transferable strengths in leadership, communication, organisation, problem-solving and managing competing priorities.

Logistics Manager - Ncamiso Trading

Coordinated logistics and operational activities, supporting planning, movement of resources and effective day-to-day operations.

Transport Agent - Porcupine Logistics

Supported transport and logistics operations, coordinating activities and communicating with relevant stakeholders to facilitate service delivery.

Business Manager - DipMaz Computers

Managed business operations and administrative responsibilities in a technology-related business environment.
